HOMEMAKERS STAGE CHRISTMAS PROGRAM
The Lake Glades Home Demonstration Club met at the Methodist Church on Friday for their annual election of officers and Christmas party.

Mr. C. H. McClure was elected president, Mrs. Ruby Lee, vice-president, Mrs. H. R. Layfield secretary-treasurer, Mrs. J. D. Hemphill delegate, Mrs. H. R. Layfield alternate delegate.

Recreational chairman Mrs. H. D. Merritt was in charge of the program announced by County Home Demonstration Agent, Miss Sara Horton.

Several interesting games were played, prizes being awarded to Mrs. Ruth Bell, Mrs. G. H. Justice and Mrs. J. D. Hemphill.

Gifts were exchanged among all present.

Miss Ruth M. Bailey, hostess served refreshments. Others attending were Mrs. Nicola Di Stefano, Mrs. Frank Robertson,

TWO PROMOTED (Continued from Page One)

responsible company, competing for the coveted position.

In September 1951 he was promoted to sergeant first class, and given the job of 80 MM Mortar gunner. When he joined the Guard in 1952, he was given the job of supply sergeant. His application for a 2nd lieutenantcy was passed on by a board of examining officers, and he was promoted to 2nd lieutenant Nov. 24, when he was assigned to Company E as a Weapons Platoon Leader.

Outside the guard, Kenneth Johnson, who was born at Nocetas, attended Canal Point and Pahokee Schools, graduating from Pahokee in January, 1948.

In civilian life Lt. Johnson is employed as an IBM operator with US Sugar Corp., Clewiston.

The promotion of these two men brings up to three the number of officers in Company E. Only other commissioned man in unit is Captain John Hoeksema, company commander.

According to M/Sgt. Jack Rashley, the unit needs to maintain a minimum strength of 54 men and 10 officers. At present there are 57 men and three officers; and more likely officer candidates are being sought.

Sgt. Rashley also says that the people strength in the unit here in the Glades is 6 officers and 165 men. Since midsummer, when Company E was far from maximum strength, an intensive recruitment campaign has been underway.

"If more people realized the advantages of training in the Guard," Sgt. Rashley says, "we would lose no time at all in signing new members."

He listed the advantage of prospects for officer training, prospects for enlisted men, summer drills, weekend training, summer training, \$3,660 in summer payment to the administrator, \$1,000 for the guard equipment lodged here in the American Legion Home (including \$15,440 worth of ordnance equipment in addition to engineering equipment and clothing); \$750 to a part-time caretaker; and \$500 for a maintenance fund.

"Besides this," Sgt. Rashley said, "the presence of the unit here in the Glades has a distinct social value." He pointed out that when January 1 comes next year to Dec. 31, Company E will have brought a total of \$13,154 into the Glades area. This is the total payment of the Guard to Guadalupe for weekly armory drills, weekend training, summer training; \$3,660 in summer payment to the administrator, \$1,000 for the guard equipment lodged here in the American Legion Home (including \$15,440 worth of ordnance equipment in addition to engineering equipment and clothing); \$750 to a part-time caretaker; and \$500 for a maintenance fund.

In accord with the rash of holiday spirit this season will be a family vesper service this Sunday, Dec. 21, at the Community Methodist Church at 5 p.m., when a Christmas program will be offered by the primary department under the direction of Mrs. James Wierengo.

Christmas programs will include the "Joy to the World," "O Come Little Children," and "Away in a Manger." A Nativity scene will be staged, and a

film, "Christmas Around the World," will be shown.

The program will include the dedication of 13 Methodist babies born in 1953: Roseanne Wood, James Edwin Bedsole, Charles Andrew Clark, Steven Earl, and Linda Marie Chico Chapman, William Andrew Payne, John David Morris, Dennis George Wedgworth, William George and Rita Faye Thompson, Raymond Roth, Jr., Carol Page Windburn, and Jean Louise Stevenson.

A special offering for orphans will be taken.

The supper service will be the last service on Sunday. No evening sermon will be preached.

EPISCOPALIANS ANNOUNCE CHRISTMAS SERVICES

Christmas services in the Episcopal churches in this area are announced as follows by the vicar, Father John Clarence Petrie:

Sunday, Dec. 21, 9 a.m.—St. Paul's Episcopal Church, Clewiston; 11 a.m.—Morning Prayer and Christmas service at Holy Trinity, Pahokee.

Tuesday, Dec. 23, 9 a.m.—Father Petrie will speak to the Belle Glade Episcopalians at the home of Dr. G. R. Townsend, 105 NW Ave., E.

He will continue his exposition of the theology of Christmas.

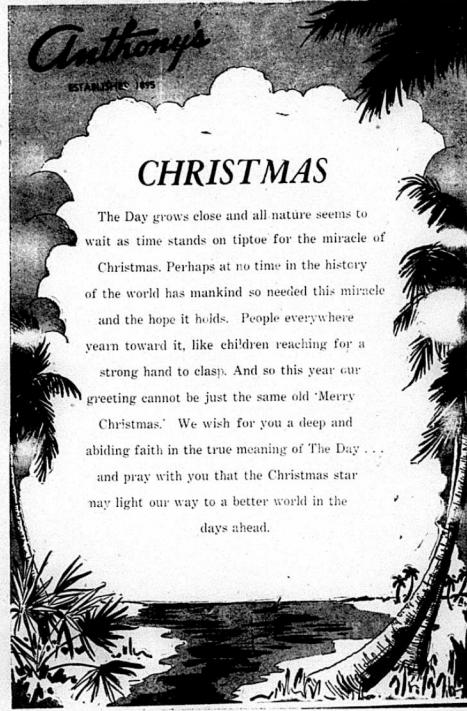

Wednesday, Dec. 24, 9 a.m.—Midnight Mass of Christmas at St. Paul's Church, Clewiston; 10 a.m.—Merdeka service of the service will be sung by a choir from Clewiston and Belle Glade. St. Paul's Christmas service.

**CHRISTMAS**

The Day grows close and all nature seems to wait as time stands on tiptoe for the miracle of

Christmas. Perhaps at no time in the history

of the world has mankind so needed this miracle

and the hope it holds. People everywhere

yearn toward it, like children reaching for a

strong hand to clasp. And so this year our

greeting cannot be just the same old "Merry

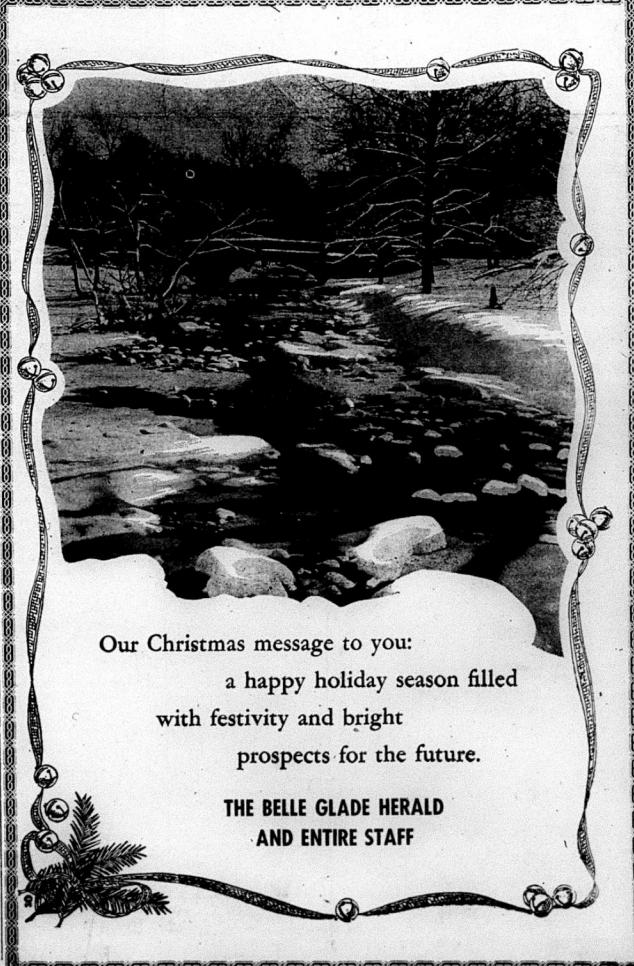

Christmas." We wish for you a deep and

abiding faith in the true meaning of The Day . . .

and pray with you that the Christmas star

may light our way to a better world in the

days ahead.

MILL-RUN MOLASSES BETTER FOR BOSSIES

Cattlemen will be interested in checking the results obtained through years of experimental

feeding in the use of mill-run molasses, as reported by U. S. Sugar Corp's Sugarcane Ranch, Clewiston.

There is a vast difference between mill-run blackstrap molasses and the more fluid standard type.

Heavy mill-run has a minimum of 84.5 degrees while the standard is only 73.2 degrees.

The nutritive value is much the same.

Another advantage of this heavier density mill-run molasses is that it will eat less than do one of the fluid types, thus making it more practical and economical by holding down the consumption to a more reasonable amount.

Experimental feeding has shown the following favorable results: additional increases in weight, higher dressing percentage and earlier growth in live weight selling price, increase in percentage of calf crop, stronger, healthier and heavier calves, better general condition and a superior external appearance or "sheen" of coat.

Cattlemen are urged in further experimentation on the subject of handling and feeding the mill-run blackstrap molasses, free choice, to cattle on the open range, should write to Mr. S. L. Johnson, Mrs. Elizabeth Paff, Mrs. J. D. Johnson, Mrs. L. Harris, Mrs. Ivan Van Horn, Mrs. George Wedgeworth, Mrs. Harold Redel, Mrs. J. E. Brown, Mrs. Jerry Peter, Mrs. T. B. Hollingsworth, Mrs. John Gledhill, Mrs. Kathie Livingston, Mrs. Della Altman, Mrs. Johnny Robinson, Mrs. Roy Bair, Mrs. Don Aspey, Mrs. W. J. Warren, Mrs. Charles Beck, Mrs. Charles White of Savannah, Ga., Mrs. Charles Beck and Mrs. Roy Shrontz of West Palm Beach and Mrs. Walter H. Thomas, Jr.

The program was arranged by Mrs. Clyde Parrish and Mrs. J. Jones.

Final plans were made for the Beta Sigma Pi sorority at home of Mrs. W. A. Wooten, Jr., Hank Aldrich, Pahokee business man, who will preside in its place at the University of Florida, talk on speech defects in children, and the necessity for correcting them.

Mr. Holliday outlined the Farm shop program he wants each club to carry out in order to increase the number of improved practices per shop individual. Many classroom hours will be constructed so that the required tables will be completed by the close of the first semester.

Several members of the chapter are placing order for baby chicks. The order is to purchase broiler stock which is highly recommended by National Hatchery Companies. Several types of brooders have been studied by the group, and will be used in growing out the young stock.

SOMEONE IS SUPPOSED to have asked that question of Abe Lincoln, and the story has it that Lincoln replied,

"Long enough to reach the ground."

This story suggests an answer to a question about cooperatives.

You see, some people today would like to grow co-ops on the other hand, feel they must grow... which brings up the question,

"How big should co-ops be?"

We think they should be big enough to do the job for which they are organized. That job is to furnish you and me with a quick, efficient means of true value of what we buy and sell. And it is organized for the benefit of its patrons. It charges a full price for whatever it markets, it sells commodities and services at fair prices.

For your protection, for the protection of all of us, co-ops must be large enough for most efficient operation in filling the needs and wants of the people they serve.

That's all.

With co-ops large enough to do their best, all of us will share in the benefits.
